- KOREAN : Listen, Read, Speaking (Basic)

## CERTIFICATIONS

- Certificate of internship at Poscar Digital Co.,Ltd (4-month internship)
- Participated in the Hauwei ICT Competition Cambodia 2022-3023

## PROJECTS

- **Online Food Ordering**

An online food ordering system with a Spring Boot backend, a React frontend using Tailwind and MUI, and an admin panel for managing orders, food items, and categories.

- **Multi-Vendor Ecommerce**

An ecommerce platform with Clerk authentication, subscription billing, and powered by a serverless PostgreSQL database using Neon. It includes real-time media optimization with ImageKit.io, and deployed on Vercel.

- **AI SaaS**

An AI-powered SaaS platform using the OpenAI API that can generate articles, create images, remove backgrounds, and remove objects, offering versatile AI tools for content.

## WORK EXPERIENCES

### **Poscar Digital Co.,Ltd (Mobile Developer Intern)**

 03 Feb – 03 May 2025

- An event management mobile app built with PHP Lumen and Flutter that enables easy event access via event keys, with features for session joining, attendee tracking, and poll voting.

### **CamMob Co.,Ltd (Web Developer Intern)**

 29 Jul – 10 Oct 2024

- A rental house management system built with Laravel 11 and Refine that enables room tracking, digital contracts, invoicing, and revenue reporting.
