ABOUT ME

I am highly motivated and eager to learn, passionate in Frontend development with a drive to create exceptional user experiences. I am seeking for an opportunity that allows me to level-up my skills and experiences.

PROJECT

Online Food Ordering

- Creating a functional backend API with Spring Boot.
- Build a responsive and visually frontend using React, Tailwind CSS, and MUI.
- Integrating Stripe to handle payments securely.
- Developing Admin Panel for managing restaurant operations including orders, food items and categories.

WORK EXPERIENCE

Web Developer Intern

CamMob Co.,Ltd

⌚ 30 August – 10 October 2024

- Developing a Rental House Management system using PHP Laravel 11 as backend and Refine framework.
- The system help house owner easier to track room availability, making digital contract agreement, create monthly invoices and receipts then generate the total revenue report.
